

Decoration of the new office in Stockholm

Ci Concept in collaboration with Clas Ohlson produced and installed the decoration at the new office on Sergelgatan in Stockholm.

Mission: Along with historical and new photos from their latest catalog we created an environment at the new office.

What we did: We created the layout and originals, produced and installed wallpaper and frosted contour cut foil.

Info: Clas Ohlson is a retail company that's over a hundred years old with operations in Scandinavia and England.
