

Atechio

Nordic collaboration with Sodexo

Sodexo and Atechio have signed a multi-year agreement regarding the rebranding of their vehicles in all Nordic countries.

Mission: Sodexo's strong environmental profile decided the selection of contracting partner. Atechio has knowledge of production with PVC-free materials combined with environmentally friendly colors.

What we did: We were responsible for producing their vehicle manual and web-based documentation tools, project management, production and installation of vehicle foil.

Info: Sodexo is one of the worlds lagerst multinational food service and facility management company with operations in over 80 countries.
